

ARZOO GUPTA

+91 7617435373 | arzoo7617@gmail.com | LinkedIn | Noida, India

Summary

Enthusiastic fresher with foundational knowledge in **data science, AI/ML, analytics, and core ECE concepts** including signal processing, digital electronics, and analytical problem-solving.

Experience

Data Analyst Intern

Jun 2024 – Aug 2024

CodTech IT Solutions — Remote

- Analyzed the Titanic dataset (**891+ records**) to identify key survival factors, improving feature understanding for modeling.
- Preprocessed datasets by resolving missing values and encoding variables, increasing data consistency.
- Developed a **Linear Regression model** on the California Housing dataset (**20,000+ records**) to predict price trends.

Education

B.Tech in Electronics & Communication Engineering

2021 – 2025

Jaypee Institute of Information Technology, Noida

Class XII (CBSE)

2018 – 2020

Kautilya Senior Secondary School, Kota

Projects

Webcam Palatte

2024

- Developed a real-time hand gesture-based painting application using OpenCV and Python.
- Enhanced interaction with computer vision techniques, including HSV color space manipulation and morphological operations.

Vendor Performance Analysis

2025

- Performed vendor performance analysis to identify underperforming suppliers and optimize purchasing decisions, resulting in a **72% cost reduction** through bulk procurement evaluation.
- Detected **\$2.71M unsold inventory** and recommended stock optimization measures.
- Designed a **Power BI dashboard** to track sales, profit, and inventory metrics.

Zepto Inventory Dashboard

2025

- Analyzed **3,000+ SKUs** and visualized revenue, quantity sold, and stock-out trends using Power BI and DAX.

Skills

- Languages:** Python, SQL, C/C++
- Analytics:** Data Analysis, Linear Regression, EDA
- Tools:** Excel, PowerBi
- Concepts:** SDLC, OOPS, DSA
- Web:** HTML, CSS, JavaScript

Certifications

- OCI Data Science Professional — Oracle
- OCI Generative AI Professional — Oracle
- Data Analysis with Python — CognitiveClass.ai
- SQL for Data Analysis — Udemy

Key Achievements

- Achieved **72% cost reduction** by analyzing vendor pricing and bulk purchasing strategies.
- Identified **\$2.71M worth of unsold inventory**, enabling improved stock optimization decisions.
- Designed interactive **Power BI dashboards** to track KPIs such as revenue, profit, and inventory turnover.
- Improved decision-making efficiency by translating complex datasets into clear visual insights.
